

CONTRACT EXTRACTION & REVIEW SERVICES

Unlock the power of your contracts with fast, accurate data analysis

WHY MAINSPRING

Our seasoned professionals have over a decade experience deploying CLM applications. We masterfully bridge the gap between legacy data and your CLM, ensuring a cohesive transition that enhances user adoption and eliminates manual inefficiencies in searching, reporting, and monitoring contracts.

Balancing automation and manual review, we redefine accuracy and efficiency. Cutting-edge technology is employed to OCR and extract pivotal contract data, then followed by the manual review and scrutiny of data by our US-based Contract Analysts. The outcome is pristine, dependable data Day 1.

Expect Turnkey Results Day 1

Contracts are loaded into your CLM as if you have always been using it

Correlate actual contract data and uses to new processes

Reduce burden on internal resources

Accurate information across standard and non-standard agreements

OUR SERVICES

Transform unstructured contract data into valuable, organized information to help optimize analysis, reduce risks and make smarter business decisions

CONTRACT DISCOVERY

Assistance locating contracts stored across network drives and folders, identifying duplicates to avoid redundancies

OCR AND KEY DATA EXTRACTION

Transform discovered contracts into optimized, searchable PDFs with machine learning extracting clauses and data

HUMAN-IN-THE-LOOP REVIEW

Manual review by our US-based Contract Analysts, aligning with your business rules for a guaranteed 97.5% accuracy

DATA TRANSFORMATION

Standardization of contract data for harmonious integration into your new CLM application

RELATIONSHIP MATCHING

Seamless migration of data and OCR-empowered contracts

CLM LOADING

Manual consolidation of related agreements, harnessing parent-child relationships for optimal CLM utilization

MAINSRING LEVERAGES THE SPEED OF TECHNOLOGY AND THE ACCURACY OF EXPERIENCED RESOURCES FOR NEAR 100% ACCURACY
