MAINSPRING'S INTELLIGENT CONTRACT ANALYZER ™

Contracts AI for Coupa and Salesforce is Here!

Faster Results. Better Accuracy.
Smarter Technology Powered by AI Automation

INTELLIGENT CONTRACT ANALYZER (ICA) SOLUTION

Mainspring, an Epiq company, has developed the Intelligent Contract Analyzer (ICA) to bring proven machine learning and NLP to our CLM environment to automate the capture of critical contract data.

This powerful tool brings AI into your contracting process, giving any user the ability to OCR and automatically extract contract text and clauses directly within your UI.

REALIZE THE TRUE VALUE OF YOUR CONTRACTS

80% reduction in processing time for contracts

- Within minutes contracts are converted to readable OCR documents and contract terms are extracted
- Populate your repository with a seamless integration

50% increase in data accuracy and accessibility

- Full visibility into all your contracted spend and contractual obligations
- Increase accessible data to cross-functional teams within your organization
- Understand current and past obligations to improve your negotiation position

Save ($) thousands annually

- Reduce or eliminate unnecessary manual review processes
- Quickly and seamlessly find the contract you are looking for
